

EDUCATION

Marwadi University

October 2022 - March 2026

B.Sc. Computer Engineering-AI
Department of Computer Engineering-AI
Cumulative GPA: 8/10

RESEARCH EXPERIENCE

IMAGE Segmentation in Medical Imaging

September 2024

Research made by me and two friends with the help of a good guide

- Use K-Means for the dataset preprocessing
- Using the CNN for classification

PROJECTS

Ranking CV | [GitHub](#)

Python, Machine Learning (Scikit-learn, NLP)

- Developed an automated CV ranking system that parses applicant resumes and ranks them based on job description requirements. Applied LP techniques to extract key features and compute similarity scores for fair candidate evaluation.

MCQ Generator | [GitHub](#)

Python, NLP (Transformers, NLTK), Streamlit

- Created an AI-powered multiple-choice question generator from input text or documents. Designed to assist educators by generating meaningful questions and distractors using NLP-based summarisation and keyword extraction.

Smart Terminal | [GitHub](#)

Python, Bash, OpenAI API, Shell Scripting

- Designed an intelligent terminal interface that assists users with commands, suggests optimisations, and automates repetitive shell tasks. Integrated AI to provide explanations of commands and error debugging in real-time.

Student Attendance System Using QR Code

Python, Node.js

- Developed a secure and efficient attendance management system where students scan unique QR codes to record their presence. Implemented real-time verification, automated data logging, and analytics features to reduce manual errors and save administrative time. Enhanced system reliability with role-based access and a clean dashboard for monitoring attendance trends.

LEADERSHIP EXPERIENCE

- **Member of the robotic club**
Coordinator

June 2023-2024

AWARDS AND ACKNOWLEDGEMENTS

Academic achievements

- Participate in Flipkart Grid 5.0

July 2023

Acknowledgements

- ✓ Network Addressing and Basic Troubleshooting from CISCO
- ✓ Data Analytics Essentials from CISCO
- ✓ Network Support and Security from CISCO
- ✓ Networking Basics from CISCO
- ✓ Certificate in Python from Coursera
- ✓ Certificate in C and C++ from CISCO
- ✓ Design Thinking for Innovation from Coursera

ADDITIONAL INFORMATION

Collaborative with a strong spirit of service, visionary, artistic and Inquisitive to understand the 'why' of ideas.
Experience in team environments, dependable follow-through and sound idea presentation.

Computer skills: Python, JavaScript, C/C++, Node. js, SQL, HTML, CSS, building and training a model using TensorFlow, scikit learn, Microsoft Office, Power BI

Languages: English (Fluent), French (Fluent),

Hobbies: Drawing (design), basketball, dancing, and reading.
